

The Bloomfield Record.

OUR WASHINGTON LETTER.

WASHINGTON, D. C., JANUARY 12, 1875.

One would suppose to judge from the articles in the newspapers, and the speeches in Congress, and the numerous protests and resolutions coming here by telegraph from all parts of the country, that the President of the Nation was a weak imbecile, to be moved, like a puppet, by popular clamor and Democratic clamor at that. The people know General Grant better than that. It will be now, as at the Presidential election in 1872, when he was arraigned and accused of all kinds of violations of the laws, that the people will endorse his course of action, and commend his policy, when they learn the facts upon which he has relied. He has proved during the war, and afterward while in command of the army, and repeatedly since he has been President that he is the last man to yield to clamor which is based entirely on information less reliable than his own, and that he will pursue the even tenor of his way regardless of any misrepresentation or abuse.

General Sheridan has raised a storm by stating the facts as they have occurred in Louisiana. Our soldiers, veterans of all the armies of the Union during the late war, and the loyal people generally will believe Phil Sheridan when he says, as he has said so forcibly, "a spirit of defiance to lawful authority and an insecurity of life" exists in the South.

There has been no decided change in the situation since last Friday. There have been rumors that the Cabinet was not a unit and that a change would take place notwithstanding Secretary Bismarck's telegram to Sheridan that all approved his course; as far as known every member stands by the President in his wise and vigorous efforts to give peace and quiet to Louisiana. It is considered that the President's position is impregnable, and he will prove it to the papers which accompany his special message to Congress tomorrow.

The "Pacific Mail" inquiry is still before the Committee on Ways and Means, and a great many members and lobbyists have been examined as to the amount of money that was used to influence votes for an appropriation for this Steamship Company. Immense sums have been used to buy out Congressmen, and the Committee manage to discover the amount, but when they are about to find the man who took the bribe, they are confronted by the answer of the witness that he can't mention names as he would be violating the relation of attorney and client. So far, four men who handled the money have been before the Committee. They are all agents or attorneys of the Pacific Mail Company. They were all working for the same end, viz: the procuring of subsidy from Congress, and is fair to presume they all used all the arguments, influence and blandishments in their power to accomplish their purpose. They, now, each decline to tell just how and where the money was used, and are sent to jail, while the others plead their "relation," &c., and go free. Until Congress goes to the bottom of these evils, and set aside for the time being such abuses, it will never succeed in unearthing the bribery and corruption that may be traced up to and inside of its doors.

The action of the United States has been hampered, in treating of Cuban affairs, by a thoughtful and creditable desire not to embarrass a young sister Republic, struggling to maintain her supremacy over the monarchial party at home, and unfriendly powers abroad. That source of embarrassments being now removed by the return of Spain to a monarchy, President Grant will now be able to maintain a policy more consistent with our National honor, which demands that we should have redress from Spain for the Virginian outrage. The President will be fully endorsed by the American people in carrying on the policy on Cuban affairs indicated in the measured, but emphatic language of his message. The struggle for freedom in that unhappy land has been waged so stubbornly and so long, that it commands the admiration of every one who desires to see men free. It is said our policy henceforth will be decided and positive, inasmuch as the question of sympathy will not be considered hereafter.

An incident occurred before the House Committee on Banking which caused a demand that we should have redress from Spain for the Virginian outrage. The President will be fully endorsed by the American people in carrying on the policy on Cuban affairs indicated in the measured, but emphatic language of his message. The struggle for freedom in that unhappy land has been waged so stubbornly and so long, that it commands the admiration of every one who desires to see men free. It is said our policy henceforth will be decided and positive, inasmuch as the question of sympathy will not be considered hereafter.

The Treatment of Diphtheria.

It has been proven that the most virulent poisons, like opium, nux vomica, aconite, belladonna, carbolic acid, chloral, chloroform, &c., will not kill bacteria, while some comparatively mild remedies, like tannin, chloride of potash, and sulphate of iron, will do this very readily.

If the bacteria theory of diphtheria be true the treatment of this disease can be made very simple and efficient. All that is required is to put a small quantity of tannin, chloride of potash, or sulphate of iron dry upon the tongue every one or two hours or oftener, and allow it to dissolve there, so that it may come in contact with the whole of the mouth and throat slowly and persistently. Gargles are only thrown up against the roof of the mouth, and as they do not reach the back of the throat, are generally useless. The experience with chloride of potash, given dry upon the tongue, is large and very satisfactory, when it is used every 1/2 hour, unflinchingly, both night and day, for at least thirty-six, forty-eight, or more hours. It is probable that tannin, given dry upon the tongue will prove equally efficacious; and also sulphate of iron. As none of these remedies are poisonous, they can be used freely, and may even be prescribed by a physician and of course may be given by parents to their children before the family physician can be obtained.

Diphtheria appears under three varieties or forms. 1st. There is a fever, severe pains in the back, bones and limbs, and very great prostration. There may be no soreness of the throat, but on examining it, small white specks will be noticed on the tonsils, but few or none on the rest of the throat. These cases will recover under any and every variety of treatment in four to six days. The great but false reputation of many remedies and physicians is based upon the necessity of a severe treatment of these cases. 2nd. Large patches of false membrane will be observed both on tonsils and on the back of the throat, but the glands of the neck do not become swollen. The majority of these cases will also recover under very simple treatment unless the disease extends down to the wind-pipe, which it rarely does. 3rd. True malignant diphtheria, with swelling of the glands of the neck and under the jaw, prostration and often extensive gangrene of the mouth and throat; more or less discharge from the nostrils. Chlorate of potash is a disinfectant as well as a curative remedy, and if given pure and dry upon the tongue every hour, night and day, will rarely disappoint the practitioner. A small dose every fifteen minutes may be a preventive remedy. Sometimes tannin may be given more readily than the chloride of potash. The sulphate of iron is more irritant, and must be given in smaller quantities. The main points in the use of these remedies are to give them dry upon the tongue, and frequently and regularly, both by night and day.

IT IS USELESS TO ATTEMPT to cleanse a stream while the fountain impure. Dyspepsia, complaints of the liver or kidneys, eruptions of the skin, scurvy, and all diseases arising from impure blood, are at once removed by Dr. W. L. R. JOLLEY'S VISCERAL PURIFIER of the blood, and renovator of the system. It has never been known to fail.

WONDERFUL SUCCESS.—Three years ago Dr. Ross's German Syrup was introduced in New York for the cure of the cure of Coughs, severe Croup, settled on the chest, Consumption and other diseases of the Throat and Lungs. No medicine ever had such a success. It has been tried by thousands of persons for three years by Druggists in all parts of the United States, and nearly 100,000 letters from Druggists are now on file, saying that no other preparation in their stores sells as well and gives such excellent satisfaction. All we ask is for you to go to your Druggist, George R. Davis, 739 Broad Street, Newark, N. J., and get a bottle for 10 cents and try it; regular size 75 cents.

The Newark Savings Institution.
